

QUICK-ATTACH BACKHOE ATTACHMENTS

Available for Terex[®] Models:

PT-30
PT-50
PT-60
PT-70
PT-100
PT-100 Forestry

- Four backhoe attachments are available to closely match each Terex[®] compact track loader. Each can be outfitted with a variety of buckets.
- Connection is via the loader's quick-attach interface plus a set of pins on the machine loader arms. Hydraulic connections are to the loader's built-in quick-connect auxiliary hydraulic fittings. All necessary hydraulic lines and connectors are included.
- All but the smallest backhoe attachment operate from a remote operator station, shown above. The backhoe attachment for the smallest loader (shown on back page) has a pivoting control console for operation from inside the standard machine operator station.
- All backhoe attachments include hydraulically-extendible outriggers.
